

Dr. Royo Salvador,

Thank you for joining our Medical Advisory Board to make a difference for all who bravely battle Syringomyelia & Chiari daily; we extend a warm welcome and we look forward to working with you and your team at the Institute in Barcelona! Your expertise will benefit our organization by assisting us in developing new resources, teaching tools, and guidelines for children and adults with Syringomyelia & Chiari that can be implemented worldwide! We are the only organization led by physicians and nurses working on the very first worldwide registry for Syringomyelia & Chiari in collaboration with the FDA and the National Organization for Rare Disorders. We now know that ongoing medical management is crucial in regards to Chiari malformation and Syringomyelia. It is our goal that the registry will open more doors for research, answer unmet needs, and most important...save lives! Thank you for volunteering to serve on our board! All of our educational materials are approved by our Medical Advisory Board and this is included during meetings. In the near future we will begin offering seminars and presentations to nurses and physicians for CME and CEU credits regarding Syringomyelia & Chiari! Our next advisory board meeting is coming up in June. I will send you a separate email with dates/times to select. We respect your time and your willingness to volunteer. We meet by phone conference every 3 months; otherwise we typically communicate by email or cell phone if needed. Welcome to our dedicated team!

Kind Regards,

Beth

Beth Nguyen RN, CEO
